Grace @ Nanjing Normal University, China
Summer research Program 2019

"This unique opportunity has given me the chance to experience and explore many things without too much pressure of school and outside expectations. While learning and gaining knowledge in research, you also have time to explore the city of Nanjing as well as take trips to other nearby cities such as Suzhou and Shanghai. It is definitely a worthwhile experience and I recommend it to anyone who is on the fence about going. "
